

WATER CONDITIONING SYSTEM

ELITE SERIES

Non-backwashing Water Conditioning System

The Purearth2o non-backwashing water conditioning system is designed specifically to reduce chloramines, chlorine, and a wide variety of chemicals and organic contaminants throughout your entire home, giving you great tasting, cleaner, safer, healthy water from every faucet in your home.

You have invested a lot of money in your faucet and appliances – Protect them!

Since many city utilities switched from chlorine to chloramines for disinfection of drinking water, reports have surfaced that chloramines may damage pipes and appliances. It has been linked to pinhole pitting in copper pipes. Chloramines may cause rubber corrosion of rubber plumbing parts like toilet flappers, and o-rings such as those used in angle stops, flexible lines, and water heaters.

There's an answer!

The Elite Series water conditioning systems provide the solution to residential hard water problems. It has proven effective in reducing mineral build-up on faucets, shower valves, and appliances. With proper care, it can keep all your plumbing faucets, and appliances looking new and with low maintenance.

BENEFITS

- No electricity needed
- No backwashing, no wasted water
- Chemical-free water
- Prolongs the life of appliances
- Significantly reduces scale corrosion on faucets and shower valves
- Provides clean, healthy, great tasting water throughout your home

Manufactured in the USA

UNITS

Elite 500 Water Conditioner	
Sized for homes up to 1,800 sq. ft.	
FLOW RATE	High-flow rate capacity up to 10 GPM
SIZE / WEIGHT	9"w x 48"h / 100 lbs.

Elite 600 Water Conditioner	
Sized for homes up to 3,800 sq. ft.	
FLOW RATE	High-flow rate capacity up to 18 GPM
SIZE / WEIGHT	10"w x 60"h / 126 lbs.

Elite 700 Water Conditioner	
Sized for homes up to 5,800 sq. ft.	
FLOW RATE	High-flow rate capacity up to 20 GPM
SIZE / WEIGHT	12"w x 59"h / 151 lbs.

WATER CONDITIONING SYSTEMS HAVE A LIMITED 5-YEAR WARRANTY
 FILTER CARTRIDGES HAVE A LIMITED 1-YEAR WARRANTY

HOW IT WORKS

Stage 1 →
5-Micron Sediment Filter Cartridge
 Specialized to reduce sand, silt, rust, and scale particles. Includes pressure gauge.

Stage 2 →
KDF Media
 KDF Media is designed to specifically reduce chlorine and hydrogen sulfide. It also controls scale build-up, bacteria, algae, and heavy metals in water while improving the life of other medias.
 Certifications: NSF/ANSI Standard 42 and 61

Stage 3 →
100% Catalytic Activated Carbon
 The chemicals reduced by catalytic activated carbon are chloramines, chlorine, hydrogen sulfide, and volatile organic compounds (VOCs). VOCs include pesticides, herbicides, and most solvents, tastes, and odors.
 Certifications: NSF/ANSI Standard 61

Stage 4 →
Quartz Media
 Gives greater flow-rate throughout the entire filter system.

Stage 5 **Scale Protection**

Scalexpel Water Conditioner provides the GREEN solution to residential hard water problems and has proven effective in significantly reducing mineral build-up on your faucets, fixtures, and appliances.
