CHLORAMINE SERIES

WHY CONDITION YOUR WATER?

Chloramine Water Conditioning System

The Purearth2o chloramine water conditioning system is designed specifically to reduce chloramines, chlorine, and a wide variety of chemicals and organic contaminants throughout your entire home, giving you great tasting, cleaner, safer, healthy water from every faucet in your home.

You have invested a lot of money in your faucet and appliances – Protect them!

Since many city utilities switched from chlorine to chloramines for disinfection of drinking water, reports have surfaced that chloramines may damage pipes and appliances. It has been linked to pinhole pitting in copper pipes. Chloramines may cause rubber corrosion of rubber plumbing parts like toilet flappers, and o-rings such as those used in angle stops, flexible lines, and water heaters.

There's an answer!

The Chloramine Series water conditioning systems provide the solution to residential hard water problems. It has proven effective in reducing mineral build-up on faucets, shower valves, and appliances. With proper care, it can keep all your plumbing faucets, and appliances looking new and with low maintenance.

BENEFITS

- Provides clean, healthy, great tasting water throughout your home
- Significantly reduces scale forming on faucets and shower valves
- Reduces mineral build-up on tile, stone, and granite
- Reduces bad odors and taste
- Prolongs the life of appliances
- Reduces power consumption
- No chemicals

WATER CONDITIONING: HOW IT WORKS

Deliver great tasting water to your home
in an affordable way that also
protects against destructive scale!

← **Stage 1 KDF Media**

KDF Media is designed to specifically reduce chlorine and hydrogen sulfide. It also controls scale build-up, bacteria, algae, and heavy metals in water while improving the life of other medias.

Certifications: NSF/ANSI Standard 42 and 61

← **Stage 2 100% Catalytic Activated Carbon**

The chemicals reduced by catalytic activated carbon are chloramines, chlorine, hydrogen sulfide, and volatile organic compounds (VOCs). VOCs include pesticides, herbicides, and most solvents, tastes, and odors.

Certifications: NSF/ANSI Standard 61

← **Stage 3 Quartz Media**

Gives greater flow-rate throughout the entire filter system.

Stage 4 Scale Protection

Scalexpel Water Conditioner provides the GREEN solution to residential hard water problems and has proven effective in significantly reducing mineral build-up on your faucets, fixtures, and appliances.

WATER CONDITIONING SYSTEM

Chloramine 500 Water Conditioner

Sized for homes up to 1,800 sq. ft.

CONNECTION SIZE	1" x 1 1/4" brass connections
FLOW RATE	High-flow rate capacity up to 25 GPM
SIZE / WEIGHT	10"w x 62"h / 110 lbs.

Chloramine 600 Water Conditioner

Sized for homes up to 3,800 sq. ft.

CONNECTION SIZE	1" x 1 1/4" brass connections
FLOW RATE	High-flow rate capacity up to 30 GPM
SIZE / WEIGHT	10"w x 62"h / 130 lbs.

Chloramine 700 Water Conditioner

Sized for homes up to 5,800 sq. ft.

CONNECTION SIZE	1" x 1 1/4" brass connections
FLOW RATE	High-flow rate capacity up to 35 GPM
SIZE / WEIGHT	12"w x 63"h / 160lbs.

Chloramine 800 Water Conditioner

Sized for homes up to 7,800 sq. ft.

CONNECTION SIZE	1 1/4" x 1 1/2" brass connections
FLOW RATE	High-flow rate capacity up to 35 GPM
SIZE / WEIGHT	13"w x 64"h / 180 lbs.

Chloramine 900 Water Conditioner

Sized for homes over 7,800 sq. ft.

CONNECTION SIZE	1 1/4" x 1 1/2" brass connections
