WATER CONDITIONER

THE GREEN SOLUTION  
FOR SCALE PREVENTION

# REVITALIZING YOUR WATER

## SCALEXPEL WATER CONDITIONER

SCALEXPEL IS A SIMPLE-TO-INSTALL GREEN SOLUTION FOR THE SCALE ISSUES WE ALL FACE.

### **Water heaters, faucets, and shower valves are under attack from corrosion every single day!**

The Scalexpel water conditioner is a eco-friendly water treatment system that protects your plumbing system and appliances against scale deposits.

The build-up of mineral deposits in your water heater, faucets, and shower valves is a costly problem, particularly in hard water areas, where water contains large amounts of magnesium and calcium carbonate. Mineral deposits will start to form corrosion the minute your fixtures are installed.

### **Your water heater can be a source for bacteria growth and potential concerns from scale build-up.**

Scalexpel water conditioner minimizes bacterial build-up in your plumbing pipes, faucets, and water heater. Scale build-up is a breeding ground for bacterial growth. Bacteria growing in water heaters can also produce an odor or rotten egg smell that is definitely not good for your health!

### **There's an answer!**

Scalexpel water conditioners provide the GREEN solution to residential hard water problems and have proven effective in significantly reducing mineral build-up on faucets, shower valves, and tankless water heaters. After it's installed, it goes to work on your existing scale as well; with proper care, it keeps all your plumbing faucets, fixtures, and appliances looking like new, and keeps maintenance low.

# PREVENTING SCALE THE GREEN WAY

## How does it work?

Water flows through the Scalexpel magnetic field, which has the effect of altering the formation of the minerals so that they remain in suspension as small particles and will not form hard crystalline deposits inside pipes, faucets, shower valves, water heaters, tankless water heaters, and appliances.

## Revitalizing your water!

The human body is composed of 70% water. We maintain a healthy balance through what we drink and what we eat every day. We also absorb it through our skin. Most people receive their water supply from local districts, therefore our tap water contains hard minerals as well as disinfectants like chlorine and chloramines. A water filter will reduce these disinfectants, while the magnetized water from Scalexpel will increase oxygenation between molecules. Revitalized water significantly improves the taste!

## YOU INVESTED A LOT OF MONEY IN YOUR NEW FAUCETS AND APPLIANCES. PROTECT THEM!

### Benefits:

- Significantly reduces scale from forming on faucets and shower valves
- Scalexpel water conditioner is a GREEN solution to preventing scale
- Reduces mineral build-up on tile, stone and granite
- Prolongs the life of appliances
- 100% natural “ anti-cholesterol” tablet for your plumbing
- Reduces power consumption
- No chemicals

## A CLEAN, SAFE AND AFFORDABLE WAY TO PROTECT AGAINST DESTRUCTIVE SCALE

If you're tired of dealing with hard water issues, talk to your representative today to find out how you can make them go away - for good!
